Menu

Double-check these ingredients for a delicious paper!

Print Your Paper

*It’s easier to work from a hard copy so you can see exactly what you’re changing!*

Read Aloud

*You are more likely to notice an error if you read your paper out loud – OR – ask your friends to read to you!*

Check Separately

*Take the time to read through your paper for a new mistake every time. Check for commas on the first read, check for verbs on the second, and so on!*

Read Backwards

*Start at the end of your paper and work your way backwards, sentence by sentence, to force your eyes to see what’s on the paper, not what you remember writing!*

Use A Ruler

*Put a straight edge under each line as you read to keep your eye focused for potential errors.*
